

Q1/2025 PARTS PROMOTIONS

It's all about Safety

No more blind spots when reversing

Ever wished you had eyes in the back when reversing? Our reverse camera kit can be positioned anywhere to prevent blind spots, helping drivers move large tonnages safely and efficiently

The camera offers a wide field of view and excellent image quality for reliable guidance. Integrated with the existing cabin display, it eliminates the need for an extra monitor. Detect obstacles in time with the camera's 120° field of view and superior video quality, color, and light sensitivity. The fast frame rate ensures a high-quality video stream with no noticeable latency.

Reverse camera

Mount the camera on the back of the cabin or the rear counterweight, and connect it via Ethernet to the display.

Fully integrated into the machine display, it removes the need for additional screens in the cabin.

Settings and camera controls are managed by Konecranes software, offering features like mirror functionality, video scaling, and split screen with two cameras.

This option can be retrofitted to all Konecranes lift trucks, as well as other manufacturers' equipment.

How to order

Send the lift truck's serial number(s)* to your Konecranes Lift Trucks distributor to get an offer with a **15% extra discount** for orders placed within March 2025

PARTS PROMOTIONS

Lifetime Advantage parts promotions encourage you to stock up on genuine Konecranes parts to ensure the maximum reliability and performance of your Konecranes lift trucks. Designed for Konecranes equipment, they can be guaranteed to meet or exceed all required standards.

Stay safe from falling objects

In busy environments, lift trucks face numerous challenges, and accidents can happen. When heavy metal goods or containers fall from a height, the impact on an unprotected lift truck cabin can be catastrophic. Enhance and ensure the safety of your operators with the Konecranes Over head guard - Safety cage. Designed specifically for Konecranes empty container handlers, this safety cage provides robust protection against falling objects.

Over head guard - Safety cage

The Konecranes Over head guard - Safety cage comprehensive structure surrounds the cabin, offering a critical safeguard in demanding environments. Prioritize safety and protect your operators with this essential addition.

This options is compatible with generation B & C Konecranes empty container handlers.

How to order

Send the lift truck's serial number(s)* to your Konecranes Lift Trucks distributor to get an offer with a **5% extra discount** for orders placed within March 2025.

Protect your drivers from demanding environments

The Konecranes Grid Cabin Protection Upgrade Solution shields operators from hard-to-see obstructions and falling objects, ensuring a safer working environment.

Lift trucks often operate in busy areas where accidents can easily occur. If undesired objects fall onto the truck due to bumps or drops, the impact on an unprotected cabin can be severe. Our solution, developed for all Konecranes forklifts, empty, and laden container handlers, addresses this risk effectively.

Cabin grid protections

Starting with the front and roof windshields, grids protect the driver if a falling object hits the cabin and breaks the glass.

These grids can be used in combination or separately, depending on individual requirements. Additionally, a grid for the condenser on the back of the cabin is available.

Benefit from:

- increased safety
- quick and easy installation
- compact design

How to order

Send the lift truck's serial number(s)* to your Konecranes Lift Trucks distributor to get an offer with a **20% extra discount** for orders placed within March 2025.

UPGRADE TODAY

Konecranes grid cabin protection can be fitted to any Konecranes forklifts, empty and laden container handlers. It provides a safer working environment for your operators, even in the toughest locations.
